Hybrid Corn

## Hybrid Characteristics

Days to Relative Maturity:...	113-115	High Population Tolerance:.....	Very Good
Black Layer GDU's.....	2,760	Drought Tolerance:.....	Good
50% Silking GDU's.....	1,450	Ear Type:.....	Very Good
Plant Height:.....	Medium Tall	Ear Height: .....	Medium
Plant Health:.....	Excellent	Ear Length.....	Long
Stalk Strength:.....	Very Good	Tip Fill:.....	Excellent
Root Strength:.....	Very Good	Kernel Rows:.....	16-18
Seedling Vigor:.....	Very Good	Cob Color:.....	Pink
Husk Cover:.....	Good	Grain Yield:.....	Excellent
Stay Green:.....	Very Good	Silage Yield:.....	Very Good
Leaf Pattern:.....	Semi-Erect	Test Weight:.....	Excellent

GDU = Growing Degree Units

## Agronomic Recommendations & Special Characteristics

Available as a Conventional & Agrisure®GT Hybrid

Very Successful Workhorse Hybrid

Responds to High Yield Management

Superior Dual Purpose Hybrid

Recommended Population 30,000-36,000 Plants/Acre Under Irrigation
